

DESIGN

Never struggle again with anything you need printed. Our professional, experienced and creative design team can create appealing and effective pieces for you, saving you time, money and headaches. Call today to see how we will work with you to cover all of your print design needs.

ELECTRONIC PRE-PRESS

The printing industry has come a long way from it's beginnings. From manually placing blocks of type to being just a few key strokes away from press, we have evolved. Our electronic pre-press department takes full advantage of the latest computer-to-plate technology. That means faster turn-around times for your projects. Our knowledgeable and helpful pre-press staff are ready to prepare your proofs and put your project on press!

OFFSET & DIGITAL PRINTING

PRiSSROOM

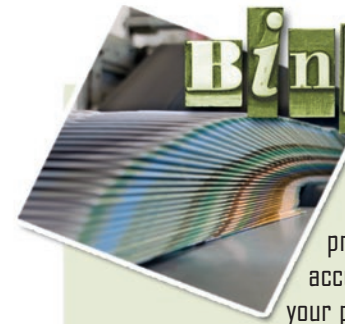

Our Komori L640C Press can print 6 colors with aqueous coating in one pass on sheet sizes up to 28"x40". Our other Komori presses allow us to print 4 colors in one pass on sheet sizes up to 20"x26". For catalog and booklet requirements, we utilize our Perfecting Press in 1 and 2 color runs on sheet sizes up to 28"x40". For those smaller jobs, our Heidelberg QuickMaster prints up to 12"x18" in one or two colors. Call us today for a quote on your next project, large or small.

DigiTAL CEnTER

Sometimes you only need a short run of a piece and putting that on press would not be cost-effective. We have a solution for you. Let us print it digitally! On paper sizes up to 12"x18" we can save you money and provide you with high quality printed pieces in 1 color or 4 color. You need a few posters? We can print those digitally as well in sizes up to 40" wide and over 200" long.

BinDery

Our bindery has 40" and 50" Polar cutters with computerized programming so your cuts are accurate every time. We can fold your products on our MBO 20" pile fed folders or our 26" continuous fed Stahl folder. Just recently, we've added the Microglue Hot Melt Glue System. This eliminates the need for tabbing on your next direct mail project and makes your project look its very best! Our eight station stitcher/trimmer has an in-line cover feeder and allows us to in-line 3-hole punch or refold for your finishing requirements. Other bindery services include perfect binding, 1/4" eyelet brass riveting on all types of stocks, one or two sided lamination, UV coating, drilling, round cornering, numbering and die cutting.
